Põrandakarbik 10x35 mm, PVC, hall

Bränd: Hager

GTIN: 4012740896733

Põrandakarbik 10x35x2000 mm, valmistatud PVC-plastikust. Vastupidav kaablikanal on varustatud kahe eraldi juhtmekanali ja ümara kaanega. Karbik kaitseb põrandal kulgevaid kaableid ülekõndimisest tingitud mehaanilise koormuse eest. Eraldatud juhtmekanalid võimaldavad erinevate kaabeldussüsteemide selget ja ohutut eristamist. Kaablikarbiku saab põranda külge kinnitada kas teibi või kruvidega – sõltuvalt kasutusotstarbest ja põrandakatte tüübist. Lisaks sobib karbik ka seinale paigaldamiseks, näiteks AV-seadmete kaablite varjamiseks. Karbik on viimistletud halli värvitooniga.

AK35100

ETIM-teave:

Laius	35 mm
Kõrgus	10 mm
Pikkus	2000 mm
Kanalite arv	2
Materjal	Plast
Isekleepuv	Ei
Sulgemishuule	Ei
Libisemisvastase kihiga	Ei
Halogeenvaba	Ei

Evaluation Version

This PDF document was created by an evaluation version of RealObjects PDFReactor 12.3.2 (17644). The evaluation version is fully functional, but includes this information page. It must not be used for production purposes. The information page and all other evaluation notices must not be removed from the PDF file.

NOTE: Conversions in evaluation mode might be slower and the results might have a larger file size than in production mode.

About PDFReactor

RealObjects PDFReactor is a powerful formatting processor for converting HTML and XML documents into PDF. It uses Cascading Style Sheets (CSS) to define page layout and styles. The server-side tool enables a great variety of applications in the fields of ERP, eCommerce and Electronic Publishing.

PDFReactor supports HTML5, CSS3 and JavaScript.

It allows you to dynamically generate PDF documents such as invoices, delivery notes and shipping documents on-the-fly. PDFReactor allows you to easily add server-based PDF generation functionality to your application or service. Since PDFReactor runs on a server, the end-user in general does not need any software other than a PDF viewer.
